## Summer Term 2024 Test the Temperature Survey

### It is that time again when SNAP PCF is asking for your help.

Due to Central Bedfordshire's Accelerated Progress Plan, the Department for Education and NHS England will hold a monitoring meeting in September with Central Bedfordshire Council, the BMLK ICB, and local health services. SNAP PCF is invited to attend this meeting as the strategic voice for parent carers in Central Bedfordshire. We need YOUR FEEDBACK, which we anonymise and will publish in a report. Previous reports can be found on our [website](#)

We need your feedback about the EHCP process, communication with the EHC Team, and your experience with the Annual Review from November 2023 to now. The survey will close on the 19th of July. Please complete the [TtT Summer Term Survey](#); it will take no more than five minutes and we do appreciate your help. We want to know what has gone well so we can share this good practice and what has gone badly so we can share this too and make recommendations.

Our last "Test the Temperature" survey was discussed at The SEND Overview and Scrutiny Sub-Committee. You can view the webcast [here](#) the discussion was on the TtT workshop we held with a focus on improving CBC and health services communication with parent carers.

SNAP PCF continues to work hard to positively influence change but cannot do this without parent carers supporting us, if you are not a member of SNAP PCF it is free to [join](#) and open to parent carers who live in Central Bedfordshire

Your feedback is crucial in helping us advocate for better services and support for SEND families. Thank you for your participation!
